TC-Sec-01 / compliance	PARTIAL	Automated no-secret/PAN checks are evidence, not a regulatory compliance assessment.

Authenticity

Actual local evidence is dated 30 October 2026, 23:31 IST. The assignment asks for testing on November 2-6; these are early execution results and should be rerun in that window. The Test Plan dates UAT November 2-6. No report claims those future activities happened. Source provenance and file hashes are in evidence/provenance.json. GitHub connection reported pull=true and push=false during preparation, so the package is ready for upload but not uploaded.
